New Advances in Alzheimer's: What You Need to Know

MAY. 21, 2024 2:00 - 3:00 PM

Join us for an informative discussion led by Meggie Gaskins with the Alzheimer's Association, unveiling the newest advancements in understanding the science and basic biology of Alzheimer's. Gain comprehensive knowledge of the innovations that could potentially shape the future of Alzheimer's treatment. Let's gather and deepen our understanding of these pioneering medications in the fight against Alzheimer's.

Dementia Education Programs - Session 1 & 2 AUG. 13, 2024

2:00 PM | SEP. 10, 2024 2:00 PM

Learning more about dementia is one way family caregivers and spouses can feel empowered as they advocate for their loved ones. Friends and neighbors also benefit from education about best practices for connecting with someone living with dementia. We are excited to welcome the Alzheimer's Association as they share tips for having these honest and caring conversations. Session 1: Dementia Conversations, Session 2: Building Foundations of Caregiving, Session 3: Supporting Independence, Session 4: Dementia Related Behaviors

Dementia Education Programs - Session 3 & 4 OCT. 08, 2024

2:00 PM | NOV. 12, 2024 2:00 PM

Learning more about dementia is one way family caregivers and spouses can feel empowered as they advocate for their loved ones. Friends and neighbors also benefit from education about best practices for connecting with someone living with dementia. We are

excited to welcome the Alzheimer's Association as they share tips for having these honest and caring conversations. Session 1: Dementia Conversations, Session 2: Building Foundations of Caregiving, Session 3: Supporting Independence, Session 4: Dementia Related Behaviors
